

FLUVANNA COUNTY TREASURER

PRESS RELEASE

Delinquent Taxes?

Fluvanna County:

The Fluvanna County Treasurer's Office announces the implementation of a new delinquency collection program. These efforts will focus on the collection of delinquent real estate and personal property taxes owed to the County. At the beginning of 2024, the delinquent accounts collectively totaled more than \$9.5 million dollars.

The Treasurer is working with Taxing Authority Consulting Services, P.C. (TACS), a Virginia law firm that concentrates its practice on representing treasurers and tax collectors. The fees charged by TACS are paid for by the delinquent taxpayers and the County will pay no fees for the service.

In collecting these accounts, TACS and the Treasurer may pursue all means of collection authorized by law, including the attachment of wages or other assets or filing suit in court.

The Treasurer is getting ready to assign delinquent accounts to TACS and taxpayers are encouraged to address their delinquencies promptly to avoid referral to TACS and additional collection costs.

“If everyone pays their fair share, everyone pays less.”
